Natural resources may exist as a separate entity such as freshwater, and air, as well as a living organism such as a fish, or it may exist in an alternate form which must be processed to obtain the resource such as ores, oil, and most forms of energy. Natural resources management deals with managing the way in which people and natural landscapes interact. It brings together land use planning, water management, biodiversity conservation, and the future sustainability of industries like agriculture, mining, tourism, fisheries, and forestry. Wildlife conservation is in the practice of protecting endangered animal and plant species and their habitats. Among the goals of wildlife conservation are to ensure that nature will be around for future generations to enjoy and to recognize the importance of wildlife and wilderness lands to humans. This book will be really useful for environmentalists, researchers and wildlife conservators in taking some positive steps towards improving our environment and protects our resources for future generation.

Dr. Ashwani Kumar Dubey is President of Environment and Social Welfare Society, Khajuraho and Editor-in-Chief of “International Journal of Global Science Research, India”. He is currently working as Guest Lecturer in Department of Zoology, Government Maharaja Post Graduate College, Chhatarpur, Madhya Pradesh.

Dr. Dubey is currently working on Impact of environmental degradation, global health, natural resource, wildlife conservation and stress monitoring.

1. Sustainable Development of Natural Resources and Wildlife Conservation  
   Nandita Pathak  
   1

2. Natural Resources Need Sustainable Management  
   Bharatendu Prakash  
   5

3. A Study of Wetland Birds in Sakhya Sagar and Madhav Lakes, Madhav National Park, Shivpuri, Madhya Pradesh  
   Mohit Arya\textsuperscript{1} and Anand Kumar Mishra  
   18

4. Environment Cleanup through Vermi-technology Using Nirmalaya (Floral Waste)  
   Anil Pandey, Praveesh Bhati and Manish K. Sharma  
   31

5. Arrival and Departure of Some Migratory Birds in Nauradehi Wildlife Sanctuary  
   Rekha Rai  
   37

6. Toxicity Effect of Plant Extract on Egg Masses of Lymnaea stagnalis  
   Payal Mahobiya and Mangla Bhide  
   42

7. Impact of Waste Water Discharge on Water Quality of River Mandakin at Chitrakoot Satna, M.P., India  
   Sadhana Chaurasia and Raj Karan  
   48

8. Effect of Different Spawns and Substrates on Growth and Yield of Pleurotus sajor-caju  
   Poonam Dehariya and Deepak Vyas  
   54

   Deepak Mishra, Pratima Mishra and Arpita Awasthi  
   61

10. Preliminary Study of Noise Pollution in Kota City, Rajasthan  
    Prahlad Dube  
    69

11. Diversity of Phytoplankton in Kishore Sagar Tank, Kota, Rajasthan  
    Seema Sharma and Prahlad Dube  
    73

12. Wise Use of Wetland for Sustainable Livelihood through Participatory, Alternative and Ecofriendly Approach in Coastal Belts of Odisha  
    78

13. Mathematical Model for Phytoplankton Growth  
    Usha Pancholi, Prahlad Dube\# and R.K. Sharma  
    88

14. Bird Diversity at Chhatarpur District, Madhya Pradesh, India  
    Ashwani Kumar Dubey  
    94

15. Prospects of Forest Management with Ectomycorrhizal Fungi  
    Veena Pande  
    103

16. नम्भूमियां और उनका संरक्षण  
    नवनीत कुमार गुप्ता  
    112
